ASSESSOR'S REPORT IS ACCEPTED WITHOUT USUAL BOARD FIGHT

First Time in Years that Assessment Figures Have Passed Committee Unopposed

YERLY'S PARK COMMISSION RESOLUTION STARTS A DEBATE

Bounties Fixed on Pelts; Defer Action on Poor Farm Hog House

For the first time in the memory of the "oldest inhabitant," the annual report of the assessor of incomes has been accepted by the committee on assessments of the county board of supervisors, without a warm fight over the figures and without a change in the assessments levied against the cities, villages and towns in La Crosse county.

The members of this precedent smashing committee are John Kindler, Fritz Wolter, George Carr, U. W. Starnett, J. H. Schubert, W. J. Dawson, P. J. Yerly. At the opening session of the annual meeting James E. Kiefer assessor of incomes, appeared before the board and calmly read the report of his annual report and then submitted it to the board. It was referred to the committee. Several minutes were held and the report given over carefully—and then favorably accepted.

There were no fireworks; no hot arguments as to why the aggregate assessment of mules, or real estate, or automobiles or cows or wagons in La Crosse county was higher than in other counties. The figures were all accepted just as they were in the report. The total of all property, true value, is \$62,821,326 for La Crosse county. And all this happened at the board meeting yesterday afternoon.

Park Board Starts Fight

The ways and means committee reported on P. J. Yerly's resolution asking the board to create a county park commission, three being in favor of the plan and two dissenting. Those voting for the Yerly resolution were Fred Goldard, Frank J. Hayek and George E. Schaeferberger; those dissenting were John Wolf and V. S. Koppel explained his vote by saying that he was against the sweeping provisions of the legislative enactment authorizing the creation of county park commissions, that he favored completing the road program of the county first that there were many farmers throughout the county who were entitled to have good roads leading from their farms that are off the main lines to the trunk highways and that making "beauty spots" in the county could wait.

Mr. Yerly was on his feet in an instant defending his resolution. He declared the time was coming when all La Crosse would want parks in the county and that it must be realized that an airplane landing field, which the commission would be empowered to lay out, would be a necessity in a few years. Furthermore, Mr. Yerly asserted the city of La Crosse was entitled to little parks and resting places throughout the county, picnic places where motorists could go for pleasant little outings and have outdoor luncheons.

Barney Olson said the highway commission could designate and lay out picnic places along the roads and suggested the advisability of creating such a commission. Adolph Nordlund thought the board was "going too fast" in appointing a park commission. He said eventually the county might have such a commission but that a present good country roads were more in demand and needed more than picnic grounds.

Hearing Next Tuesday

On a motion by C. K. Pettigill the resolution was made a special order for next Tuesday at 2 p. m. in order for the board members to give further thought to the subject and allow time to gather facts to debate the question.

The ways and means committee reported favorably on a resolution fixing the bounties on the pelts of undesirable wild animals the same as provided for this year. They are \$4 for wolf cubs; \$10 for mature wolves; \$1 for wild cats; \$2 for fox; fifteen cents for crows; fifty cents for rattlesnakes; twenty-five cents for pocket gophers; five cents for striped gophers.

A resolution asking for \$1,000 for a hog house at the poor home and farm was introduced but action was deferred until after a visit to the farm next Tuesday. John Hatz was elected to the committee on common schools. The board adjourned until Monday at 10 a. m.

SOCIALISTS OF U. S. TO PARTICIPATE IN BERNE CONFERENCE

CHICAGO, Ill.—The socialist party of the United States will participate in an international conference at Berne, Switzerland, on December 5, according to an announcement from party headquarters here Saturday.

The conference was called by socialist parties of England, Germany and Switzerland with a view to suggesting modifications of the Third (Moscow) International permitting admission of these parties to the international organization.

ARE THESE MEN HARDING'S "BEST MINDS IN U. S.?"

Who will be in President-elect Harding's cabinet? Are these the "best minds" in the country he has promised he will call to his administration? Speculation is now rife as to the personnel of the cabinet. There are many guesses. Here are the pictures of nine prominent republicans frequently mentioned for cabinet posts. JUDGE LANDIS TO RULE BASEBALL

CHICAGO, Ill.—Peace reigned in baseball circles Saturday following Friday's agreement between the opposing factions in the reorganization of the game. The sixteen club owners of the two major leagues were in accord on every issue, which left the same eight clubs in the National and the same eight in the American league, and the threatened war was averted.

GERMANY READY TO JOIN LEAGUE OF NATIONS BUT WON'T SEEK ADMISSION

GENEVA.—(By the Associated Press.)—Germany will not apply for admission to the league of nations, but would not ignore an invitation from the organization to become a member, Dr. Herrmann Mueller, vice-president of the foreign affairs committee of the reichstag, says in a statement to the Journal De Geneve.

"Germany will not ask the assembly to admit her to the league," he declared, "because such an application would give rise to a sharp discussion in the assembly, for it is known certain states have given indications they would oppose her immediate entry."

"Besides, the German government does not consider the league in its present form as perfect. How, indeed, could it be, since to mention only two states, it includes neither Russia nor the United States, and universality is the fundamental condition of its existence."

"That however, does not mean that Germany would maintain a reserved attitude in the event of some delegation raising the question of her admission and if the assembly should accept her, Germany would not decline an invitation resulting from such a decision."

PRIEST DASHES INTO FLAMING HOME TO SAVE HIS PARENTS

Mr. and Mrs. John Hauck of Arcadia Suffocated by Smoke in Early Morning Fire

HOME ADJOINED PARSONAGE; VOLUNTEERS FIGHT BLAZE

Aged Couple Reach Window and Door When They Succumb

Mr. and Mrs. John Hauck of Arcadia were suffocated when fire broke out in their home in that city early today, according to word received in La Crosse. They were the parents of Rev. John L. Hauck, pastor of the Catholic church of Arcadia.

People living near the Hauck home were aroused about 4:30 a. m. by the fire that had burst through the windows of the dwelling. The volunteer fire department quickly arrived on the scene. Rescuers, led by the priest, whose parsonage adjoins the Hauck home, entered the house to save the aged couple.

The body of Mrs. Hauck was found near the kitchen door. Mr. Hauck was found near a front room window. They had been suffocated by the smoke while trying to get out of the house.

PORTUGAL TO BRING BODIES OF UNKNOWN DEAD FROM FLANDERS

LISEBON, Portugal.—Parliament has voted a sum to bring the bodies of two unknown soldiers from the Flanders battle-field and from Africa for interment in the Church of Belem, where many Portuguese monarchs are entombed.

When informed of their mission, he had them escorted to his chambers. There they were kept in waiting for forty-five minutes before the judge would listen to the offer, which increased his annual salary from \$7,500 a year to \$50,000.

Waiting on the judge were Charles Comiskey, president of the Chicago White Sox; William Veck, president of the Chicago Cubs; Jacob Ruppert

PEREKOP ISTHMUS REPORTED IN HANDS OF THE BOLSHEVIKI

Gain Control of Approach to Crimean Peninsula Says Dispatch to Paris

WRANGEL'S POSITION REGARDED AS EXTREMELY PRECARIOUS

Reds Advance Beyond Perekop and Capture Much War Material

SEBASTOPOL.—By The Associated Press.—The forces of General Wrangel in the Crimea are in a most desperate situation, the bolsheviks, having broken through all the lines of defense, are now attacking the Wrangel army in the rear.

PARIS.—The Russian soviet forces have won control of the isthmus of Perekop, leading to the Crimean peninsula, and the situation of Gen. Baron Wrangel, the anti-bolshevik commander in the Crimea, is extremely bad, according to dispatches received Saturday by the French foreign offices. The allied fleets, it is stated, are preparing to aid in the evacuation of certain districts in the Crimea.

The bolsheviks have advanced beyond Perekop, the dispatches show, and have captured twelve million cartridges, eighteen cannon, one tank, three armored trains, ten thousand shells and much transportation material.

Evacuate Sebastopol

LONDON.—Sebastopol is being evacuated and British authorities are requisitioning ships in Constantinople to take refugees from that city, says a dispatch to the Exchange Telegraph company.

Eighty thousands persons in Sebastopol seek transportation from the city, says a Constantinople dispatch to Reuters' Limited. The dispatch, filed yesterday, says available ships are limited, and that it is probable it will be impossible for more than 20,000 to embark. The first boatloads of refugees have arrived at Constantinople it is said but were not permitted to land, as housing facilities are limited and food is scarce. Their plight is declared grave.

General Baron Wrangel's situation in northern Crimea, is said to be desperate.

COTTON OUTPUT SHOWS BIG CUT DURING OCTOBER

WASHINGTON.—Curtailment of cotton manufacturing, which has resulted in the complete shutting down of some mills and the placing of others on part time, was reflected in the October cotton consumption statistics announced Saturday by the census bureau. The amount of raw cotton used for manufacturing purposes last month was the smallest of any month in the past six years.

The quantity used in October was 399,337 bales, or 156,000 bales less than used during October last year and 57,000 bales less than used during September this year.

Mills in the northern states seem to have curtailed production to a greater extent than those in the south. Spindles active during October for the entire country numbered 674,291 less than in October last year while in cotton growing states the number of active spindles in October showed an increase of 164,940 over October a year ago.

MOTHER WAS KILLED AND BURIED IN WELL BOY TELLS POLICE

LANGDON, N. H.—Solution of the disappearance four years ago of Mrs. Dischance Wright, Whitney was sought again Saturday by county authorities. Abandoned wells and water-holes on the farm here from which her husband, William B. Whitney, county road agent and former selectman, disappeared without notice October 30, Sheriff Barton said that while there had been no confirmation of the story of John Whitney, 15-year-old son of the missing man by a former marriage, that his stepmother was killed in a quarrel with Whitney and her body buried in a well, he felt the circumstances warranted exploration of the entire farm.

Having gone to the bottom of one well, Friday with the finding only of bones believed to be those of an animal, the authorities turned Saturday to another old well packed with stone and debris.

FIRST RED CROSS NURSE HONORED IN SPECIAL CEREMONY

NEW YORK.—Special ceremonies in honor of Florence Nightingale, famous English nurse, during the Crimean war, were held Saturday by the Red Cross at the base of the Statue of Liberty in New York harbor. The program was part of the Red Cross annual roll call activities.

Representatives of the British, French and Italian governments, national welfare organizations, and officers of the army and navy attended.

COUNCIL GOES ON RECORD AS OPPOSED TO BUILDING OF UNION DEPOT IN CITY

ELEVEN VOTE AGAINST BIG PROJECT HERE

City Attorney Instructed to Appear Before Commission and Urge Dismissal of Petition

HEARING IS NEXT WEDNESDAY ACCORDING TO ANNOUNCEMENT

Council Committee Finds that Union Station is Impracticable for La Crosse

By a vote of 11 to 7, the common council Friday night went on record as opposed to a union depot in La Crosse. The city fathers took this action, despite the fact that practically every civic organization in the city has adopted resolutions pledging support to the project and urging the consummation of an enterprise which has engaged the interest of thousands of citizens for the past three years.

There was no discussion of the resolution opposing the building of a union depot, the measure being put upon its passage by Mayor Bentley immediately after read by Alderman Didesh, member of the special union depot committee.

Asks Better Depots

The resolution, after reciting that the building of a union depot in La Crosse seemed unwise because of the length of the city, and the depots as now located appear to serve the citizens better than would one at the station, calls for the various railroads to rebuild and improve their depots, and instructs the city attorney to appear before the railroad commission and oppose the construction of a union depot.

The railroad commission will be in La Crosse next Wednesday to conduct a hearing on the petition for a union depot.

Vote on Resolution

The vote on the resolution opposing a union depot follows:

Ayes—Aldermen Collins, Didesh, Fraser, Kienholz, Muenzenberger, Newburg, Rice, Strand, Verchota, Voigt, Weigel—11.

Noes—Aldermen Funk, Mulder, Robinson, Roellig, Smith, Strauss, Worth—7.

Excused from voting: Alderman Mahoney.

Absent—Aldermen Dubraks, Knutson.

RED CROSS SUNDAY TO BE OBSERVED IN NATION'S CHURCHES

Uncompleted Work of Red Cross to be Stressed in Sermons on Sunday

WASHINGTON.—Uncompleted work of the American Red Cross in Europe will be emphasized in sermons in churches throughout the country Sunday, which has been designated as Red Cross Sunday. Dr. Livingston Farrand, chairman of the Central committee of the Red Cross said Saturday. Thousands of ministers will discuss the organization's relief work and urge the public to continue to support it.

Calls Plans Impracticable

"Whereas it is the judgment of such common council that certain of the plans heretofore proposed to the railroad commission of Wisconsin as a site and lay out for a union station for La Crosse, are practically impossible."

For La Crosse and vicinity—Fair to night and Sunday probably becoming unsettled by Sunday night. Somewhat warmer tonight.

For Wisconsin—Fair tonight and Sunday probably becoming unsettled by Sunday night. Somewhat warmer tonight.

For Minnesota—Partly cloudy tonight and Sunday possibly becoming unsettled in south portion Sunday. Somewhat warmer in south portion tonight.

For Iowa—Increasing cloudiness and warmer tonight. Sunday unsettled with possibly rain or snow. Warmer south.

ONE "RED" ALL THOUGHTFUL AMERICANS APPROVE IS

THE RED CROSS

Truly modern and intelligent in purpose it embodies the two essentials of present day culture.

IT IS SCIENTIFIC AND LOGICAL

1. In recognizing the law of cause and effect in diseases.
2. In using physical means to correct physical ills.
3. In time-tried preventive remedies scientifically used.
4. In truthful warnings against infections and impurities.

IT IS CHRISTIAN AND HUMANE

1. In honest recognition of the problem of affliction.
2. In sympathetic application of Divinely provided healing elements.
3. In helping folks forget selfish aims in unselfish service.
4. In teaching individual responsibility for the public health.

EVERY AMERICAN BELIEVER IN SCIENTIFIC CULTURE, OR IN THE CHRISTIAN RELIGION, ENDORSES THE RED CROSS.

Hear about it tomorrow in representative Christian churches. Give it intelligent Christian approval—

WAR THREATENS IF SILESIA GOES TO GERMANY IS REPORT

WARSAW.—Declaration that war between Germany and Poland would be inevitable if the coming plebiscite

in Upper Silesia gives that region to Germany, was made Wednesday in the Gazette Paranna, an organ of the national democrats. The paper predicts another world war would result with France and Belgium joining Poland and Great Britain siding with Germany. It adds: "If England should enter this war it would

mean, perhaps, the end of British world power."
The newspaper contends that Great Britain has shown certain leanings toward Germany in Silesian affairs, and warns Britain to keep her hands off.

OLD STUFF

"OLD stuff" is the comment which one finds most appropriate to the diatribe against the "movies" emitted on Friday by T. D. Hurley, who is head of the group of gentlemen in Chicago which decides what the public shall or shall not be permitted to see on the films. That some of his charges would lie against the motion picture industry of several years since is probably true, but Mr. Hurley appears to be either ignorant or deliberately blind concerning a number of wholesome developments in the film world since that time.

Almost any exhibitor could have told Mr. Hurley that the day of the "vamp" film, which he so strenuously condemned as an evil influence upon childhood, has passed. The most famous "vamp" of them all is no longer in the pictures but on the legitimate stage, and the very term has become a by-word and a hissing in the industry. That might, of course, be an improvement merely incidental to a change of film fashion, but those in touch with the industry will also give considerable credit to a reaction toward better and cleaner amusement which is now in full tide, bearing with it the most prominent personalities of both the business and artistic provinces in the screen world.

Has Mr. Hurley ever heard, one wonders, of the Motion Picture Theatrical Association, familiarly known in the industry as the "M.P.T.", the members and active workers in which include such personages as Jessie L. Lasky, D. W. Griffith, Hiram Abrams, Maurice Tournier, Marshall Neilan, Lewis J. Selznick, William S. Smith, Robertson Cole, Lois Weber, Sydney Cohen and J. D. Williams; and which is supported and endorsed by such notables outside the movie world as Charles A. McMahon, representative of the National Catholic Welfare Council, and Judge William K. Wadhams, president of the National Child Welfare Association. The object of this association, which is thus peculiarly representative of the industry which Mr. Hurley sees fit to condemn so largely and uncritically, is in its own words "better pictures"—morally and artistically.

It has undertaken to establish standards of the highest, to which gauges of decency and merit all pictures must conform, and to inform the public as to what films have the endorsement of the clean and wholesome majority of the industry by issuing to each such an M-P-T Merit Seal. Few other industries have gone so far in voluntary warfare upon bad conditions, and a business so critical of itself and so eager for improvement deserves, at least, just recognition of its good works and intention along with denunciation of occasional conditions which a disreputable minority has permitted.

WHAT'S YOUR HURRY?

ONE hesitates to think of the aggregate force of the shock which must have been sustained by citizens all over this broad land at the screaming headlines in the papers reporting the impending edict against the sale of the materials for home brew. As Bert Taylor once sagely remarked, instead of killing the brewing industry prohibition has caused thousands of people to engage in it who were never previously concerned in the manufacture of beer. Probably there is no other infant industry in the United States so lusty for its years as the home-brew industry. The mental devastation which the latest outgiving of the dry enforcement crew has spread must have been tremendous.

One notes with interest that the order, thus far, is merely in contemplation. This would seem to indicate a hitherto unsuspected quality of circumspection in the vaunting ambition of the liquor sleuths. Although their efforts to make the country as dry in fact as in legal fiction have, to judge by appearances, been not greatly more effective than the classic effort to hurl back the ocean's tides with a broom, it has

not before been observable that the enforcement officers were conscious of any discrepancy between purpose and accomplishment. They have been long on thunderous interviews, but the moonshine still has waxed fat and cocky notwithstanding, and the bootlegger felt safe in neglecting even ostensible obeisance to the altar of Volstead. That the contemplated fiat against the sale of malt and hops was not forthwith announced may be taken as an evidence of a humility as novel as it is warranted in the face of the Herculean nature of the undertaking.

That there will be strong pressure for an attempt to establish the order is probable, but that it will be successful in the prevention of home brewing seems much less likely. Those who "like their glass of beer", speaking by past experience, find prohibitory pronouncement but sets an edge to their determination to have it at all costs, and it is manifestly not feasible to put a considerable minority of the population in jail. Much has been accomplished by prohibition, but for its final vindication it must await the growth of a generation which has not seen nor tasted, and which above all has not been acquainted with alcohol as an accepted and respectable accompaniment of proper sociability. That is a matter of patience, and brash and over-hasty multiplication of "thou shalt nots" in dealing with a people jealous of its utmost freedom and individualism may have unexpected results. Un-fanatical folks who want to accustom the country to steadiness in prohibition harness will want to see a humoring hand on the rein during the breaking-in process rather than risk "busting the breeching" and a runaway.

CONTEMPT OF COURTS

WHEN H. F. Graham, former governor of Vermont, was sentenced in the supreme court of that state after having been convicted of embezzling state funds, he appealed to Governor Clément for an unconditional pardon.

And the very day the embezzler was sentenced by the highest court in the state he was given his unconditional pardon!

That is how the chief executive of an American commonwealth holds the highest court of his state in contempt. If that isn't real contempt of courts, what is?

Sentenced to prison for five years; pardoned immediately by the governor, before one foot had been set within penitentiary bounds—can you wonder that other convicted criminals of Vermont may entertain a decided feeling of contempt for the courts? If non-criminal citizens of that state escape that feeling in respect to their courts, it can only be because they have too great a contempt for the governor.

"Mornin'" said the girl pleasantly. The young man saluted and sat down on the edge of the berry bushes. His fingers, big and brown and clumsy, made slow work of the berry picking. He stopped a moment to watch his companion in labor as she stripped the bushes with the easy skill of experience. From her fingers his eyes traveled to her face and he noted the healthy glow of color in her cheeks and the thick mass of chestnut hair that was drawn back under her course, wide hat.

Dan Willard summed her up as the typical farmer's daughter—skilled in her tasks, healthy, unthinking, happy. Then he went back to his own laborious task.

"If you'd begin at the bottom of the bush—say, if you'd pick the berries off—so you'd get on faster!" Dan looked into her pretty liquid eyes and learned his lesson.

There was a long conversation, while they worked at varying speeds, while the drowsy hot sound of the locusts came to them, and the breath of the hayfield, fresh and sweet with a thousand blended perfumes.

GHOST CLOTHES COME—HEZEKIAH TO APPEAR

BY ELISABETH STEELE

(Fourth Day of Story, "The Shade of Hezekiah Applegate")

"The more I thought of that old skeleton suit of my brother's the more the idea appealed to me. I decided to produce at Pine Crest the ghost of the pioneer murderer, Hezekiah Applegate."

"After dinner I got permission to walk into town to get some cold cream and things, but really to send Jack a letter."

"Things were comparatively quiet for two days: we took our morning dips, ate breakfast food, made our bunks, went to devotion, swam, lunched, rested, swam some more, hiked and ate prunes without a ripple of excitement in the placid calm of camp life. The girls were so unnaturally good that Miss Spurgeon began to get worried about their health. I haunted the mailbox down at the Jack before it reached the lodge. The distribution of mail is so public here. Finally it came and the dear boy said he was sending the suit the same day. Packages are delayed so I knew it wouldn't come till Wednesday."

"Well, it did! I met the postman at the Sebbies farm and got it. I didn't want any one to see me. The Owl had a ban on spreads. She was sure to inspect every package that came in. I climbed down into the little ravine back of the camp where no one would see me and unwrapped the package. It didn't look very promising, the

"Where shall Hezekiah make his first appearance?" I pondered. Finally I decided on the point where the boathouse stands, near the pump where the girls come at all hours of the night to get water. I decided to let Louise in on the plan."

he said, and he saw her face widen and grow strained. "I wonder if you'd kiss me for good-by?" She did not answer, but she did not turn her face away. When he held her in his arms he said quickly, "I came to say good-by, dear, but I can't! In spite of everything I want you to marry me, if you will!" He thought he heard her sob and he knew she trembled in his arms. "Oh, Cissy, will you?" She lifted her face to him mutely. Then holding her hand tightly in his, he told her the truth. RECURRENCE OF FLU/EPIDEMIC IN STATE FEARED BY DOCTORS

Third Peak of Influenza Prevalence Expected During the Coming Winter

MADISON, Wis.—Is Wisconsin due for another epidemic of influenza and pneumonia?

This question is interesting to the state board of health at the present time. Statistics obtained during the influenza epidemic in Massachusetts in 1900-91 showed there were three distinct outbreaks of the disease. The death peak of the initial outbreak occurred in January, 1900. The first recurrence or second peak occurred in May, 1891, or 16 months later. The second recurrence or third peak was noted in January, 1902, eight months after the second peak and 24 months after the first.

In the 1918 epidemic the death peak in Wisconsin occurred in October. Sixteen months later (February, 1920), came the first recurrence or second death peak, the time interval being identical with that noted in 1890-91. According to previous performances there should have been a recurrence of influenza and pneumonia in Wisconsin during October, 1920. There were during October, however, but 21 cases of influenza reported to the state board of health, a number which may be regarded as normal at this season of the year.

"Whether or not the expected third peak of influenza prevalence will occur this winter is an extremely difficult matter to forecast," says the board. "For the reason that the intervals between epidemics other than that of 1890 have varied widely."

"In view of the uncertainty of this matter the state board of health feels there is but one sensible course to be pursued: 'Be prepared.' Moreover, it should constantly be borne in mind that any precautionary measures against influenza likewise afford protection against all other communicable diseases. Health officers throughout the state are strongly urged to make definite plans for prompt diagnosis of cases, immediate isolation of infected homes and careful regulation of the board should be studied and plans devised for their effective application."

"The precautions to be observed by individuals are now generally understood, although, it must be said, inadequately applied. One striking fact, however, stands out: Persons who go to bed promptly when feeling badly and obtain absolute rest, have a far better chance of recovery than those who keep at work and incidentally infect those coming in contact with them."

KEY WEST WARNED TO GUARD AGAINST LANDING OF CABLE

Western Union Denies Report of Attempted Landing Without Executive Authority

WASHINGTON.—The navy department Friday advised the commandant at Key West, Florida, that there was a report that another effort would be made soon to land a submarine cable from Barbados, at Miami, Fla., without an executive permit.

The Western Union Telegraph and Cable company has sought to land a cable from Barbados to Miami, but the state department has withheld a decision as to granting a permit pending the conclusion of the international communications conference now in session here. Naval officers would not discuss the report that led to the instructions to the commandant at Key West.

The commandant at Key West will determine whether it will be necessary to send warships to Miami. The navy has one or two submarine chasers there now. It was said at the navy department.

Report is Denied
NEW YORK.—G. W. E. Atkins, first vice president of the Western Union, in the absence of Newcomb Carlton, president, denied that the company soon would attempt to land a submarine cable from Barbados at Miami, Fla., without executive authority.

Sheridan, Wyo.—Wyoming experienced the coldest weather so far this winter. Temperatures ranged from zero at Cheyenne to ten below at Sheridan.

STENOGRAPHERS IN GREAT DEMAND FOR STATE POSITIONS

Second Examination Necessary to Secure Candidates for Vacant Positions

MADISON, Wis.—That there never has been a greater demand for stenographers and typists in state service than there is at the present time, is the statement of John A. Hazelwood, secretary of the Wisconsin civil service commission. The demand for typists and stenographers is so great that it has been necessary to hold a second examination this fall to secure available applicants. Examination for stenographers and typists for the position was held during the last week in September.

Examinations will be held at Madison December 4 and at Milwaukee December 11, and other centers of the state having sufficient number of applicants for stenographic and typist positions. A number of positions will be open in departmental and institutional service. A position is open for legal investigator for which no written examination is required. Another position is open for assistant case investigator for the railroad commission. This position pays a salary of \$1,500 a year. A purchasing agent is to be selected for the state. A superintendent, either man or woman, for free employment office. Other positions open are employment clerks, open to both men and women; state inspectors of weights and measures open to men only; and positions of teachers and guards at the state reformatory and other state institutions.

Examination for legislative positions are also to be held on December 4 and 11. These include bookkeepers, \$5 a day; bookkeeper assistant, \$4 a day; clerk, index, \$5 a day; clerk, general, \$5 a day; clerk, journal, \$5 a day; clerk, journal, assistant, \$4 a day; mailing clerk, \$4 a day; custodian of document room, \$4 a day; custodian of document room, assistant, \$3 a day; night laborer, \$3 a day; messenger, \$2.50 a day; postoffice messenger, \$5 a day; photostat operator, \$5 a day; postmaster, \$4 a day; proofreader, \$5 a day; sergeant-at-arms, assistant, \$5 a day; stenographer, \$5 a day; typist, \$4 a day; night watchman, attendant, policeman, etc., \$3 a day.

"THREE WISE FOOLS"

What may almost be termed a real all-star cast is presenting "Three Wise Fools," Austin Strong's famous comedy success, which comes to the La Crosse theatre Thursday, November 18. No play of recent years has been more praised for the care with which the players were chosen. John Golden, its producer, is noted for his exceptional judgment in choosing players. "Lightnin'" now in the third year of its run on Broadway, "Turn to the Right," a huge success a few seasons ago, and "Dear Me," the Hale Hamilton hit, are some of the Golden offerings.

"Three Wise Fools" is a comedy that combines the rare qualities of humor, charm and suspense to an unusual degree. It is clean and wholesome, yet sparkling with wit and real humor. In the hands of the exceptional company—the same, by the way, that established the ten months' run on Broadway—local theatre-lovers are assured a real entertainment.

AT THE THEATERS TODAY
Rivoli—Anita Stewart in "Harriet and The Piper."
Majestic—Why Change Your Wife?
Bijou—Mary Pickford in "Heart of The Hills."
Strand—The White Circle. Maurice Tourneur production.
Cavalcade—"The Fighting Terror" and "The Son of Tarzan."
Strand—Corinne Griffith in "The Garter Girl."

MAJESTIC
Introducing Gloria Swanson and Bobe Daniels, catch-as-catch-can battlers extraordinary!
For the benefit of a battery of cameras, these two talented members of Cecil B. DeMille's all-star motion picture company recently staged a battle that will go down in screen history as one of the wildest and most destructive hand-to-hand conflicts ever filmed.

The fight was promoted by Cecil B. DeMille in the interests of his latest Paramount Artercraft production "Why Change Your Wife?" which is at the Majestic Theatre for the last time today. Mr. DeMille acted as referee, timekeeper—and, incidentally, director.

Of course, the battle was over a man. The gentleman was Thomas Meighan, and he was about the only person at the studio who did not witness one or more rounds of the scrum. His role required him to slumber peacefully through the series of scenes.

RIVOLI
The vengeance of a Hindoo, whose bride had been wronged, is realized when he slays to death Royal Blonadin, exponent of free love and mendacity of Greenwich Villages elect. Bringing to a thrilling climax Anita Stewart's latest First National picture, "Harriet and The Piper," which is showing at the Rivoli Theatre now. Miss Stewart plays the part of Harriet Field, a small town girl, who is duped into going through a free love marriage with Blonadin. She escapes from him after the ceremony, and the tragic end of the perfidious Blonadin results in real happiness for Harriet.

Bijou
Bound by his word of honor to visit once each year a lonely spot on the Scottish sand dunes in the expectation of receiving the bullet in his heart that would end it all—that is the strange pact carried out by the youthful hero of "The White Circle." Maurice Tourneur's latest screen production, The picture, which is a Paramount Artercraft, will be at the Bijou Theatre for the last time today.

It is on one of these annual visits that the young man saves a pretty girl from death in the quicksand, and by this act becomes involved in the strangest romance and adventure imaginable. "The White Circle" was adapted from Robert Louis Stevenson.

STRAND
Corinne Griffith and her director, Edward Griffith, went down to a couple of Long Island villages to look over the locations for "The Garter Girl," which will be shown at the Strand Theatre today only. In one town they found the going so bad under foot that they decided on a taxi—if they could find one. "I'll ask that cop," said Griffith, pointing to a uniformed man standing ankle deep in the slush directing traffic.

The "cop" proved to be the chief of police, but he was obliging. He quit his job and found a taxicab. Later when they were ready to start home Griffith stopped to thank the chief for his kindness and to remark that the chauffeur had been a very careful driver.

MILIE FRITZI SCHEFF COMES ON FRIDAY NEXT IN GLORIANNA

When F. C. Whitney presents Milie Fritzi Scheff at the La Crosse Theatre on Friday night next in Gloriana, it will not only offer the public the greatest star who has ever appeared on the American stage in musical comedy, but the highest rated artist who has ever headed a musical comedy organization.

The salary received by Miss Scheff alone is perhaps as much as is paid the entire cast of the smaller musical comedy organizations. He has surrounded his famous star with an entire company of Broadway favorites who are perhaps better known to the patrons of the New York theatres than locally. Among the names noted on the program which was submitted to the La Crosse Theatre are: Rhoda Mikels, a pretty blonde prima donna soprano, who last season was the star of and sang the title role in "The White Circle" at the New York Hippodrome for two seasons, Gustav Knicker, formerly with Elsie Janis during her New York engagements and also a baritone of the Chicago Grand Opera company, Frank DeVoe, an eccentric singing and dancing comedian who has been a vaudeville headliner on both sides of the Atlantic, as well as the principal comedian with some of the most important musical comedy stars and productions of the present time, James Dunn, a wonderful dancer and clever comedian, now in his second season with Miss Scheff, Harriet Cross and Marie Weir, two very beautiful girls and really wonderful dancers.

SALARY INCREASES HELD UP TO MAKE LIVING COST PROBE

Special Committee of Common Council to Ascertain if Prices are Going Down

Before any additional salary increases are granted city employees, a special committee of common council will conduct an exhaustive investigation into the cost of living, primarily to determine whether the peak of high prices has been reached and the downward trend has started.

Alderman F. W. Mahoney presented a resolution at the monthly meeting of the common council last night calling for the investigation and the measure was adopted with the understanding that the committee will report at the January meeting. Applications for salary increases in several departments are pending in the council. All will be held up until the survey of the cost of living is completed.

Mayor Sounds Warning

That the city of La Crosse is enjoying luxuries which many cities twice its size and having double its assessed valuation do not have, was the declaration of Mayor Bentley, Friday night in touching upon the financial problems which confront the city. Despite an increase of 50 per cent in the assessed valuation this year, the mayor said the demands of the schools and various other departments of the city government were so heavy that retrenchment would be necessary along the line and public work would have to be greatly curtailed next year if taxes were to be kept down safely within the legal limit.

Many Paving Measures

A dozen resolutions calling for brick paving and new macadam streets were introduced last night and referred to the special street improvement committee. Alderman Mahoney introduced a majority of those resolutions, calling for brick paving on various north side streets.

A communication from the board of health asking for an increase in the salary of Miss Myra Kimball, supervising city nurse, from \$1600 to \$2,000 was referred. Miss Kimball has been offered an increased salary in another city, and the board of health is anxious to keep her here.

Alderman Roellig offered a petition for water in Uliview addition, signed by 30 property owners. It was referred.

Alderman Fraser Submitted a Petition

asking for cinders on Twenty-third and Madison streets.

Market for Autos

A resolution setting aside part of the market square for parking of automobiles of farmers and others was adopted.

The board of public works was authorized to place any netting on the outside steel work of the Rose street viaduct, to prevent children playing among the beams.

Alderman Roellig asked to have cinders placed on Badger street on both sides of the street car tracks.

The council adopted a resolution offered by Mayor Bentley, asking congress to order the Interstate Commerce Commission to make a survey of the possibilities of commercial navigation on the upper river, to the end that the Mississippi river may be utilized. A special committee headed by Mayor Bentley will go to Minneapolis to attend the waterways meeting November 17 and 18.

Alderman Verchota offered a resolution asking the Wisconsin-Minnesota Light and Power company to crush coke for local citizens. It was adopted.

The council was notified that the Railroad Commission of Wisconsin has granted an increase in passenger fares on the La Crosse and South-eastern railroad from four to five cents per mile.

Alderman Newburg introduced an ordinance increasing the fees for inspection of plumbing, which was referred to a committee.

The council adjourned to November 20, when the budget will be adopted.

ADMIRAL BENSON AGAIN HEADS U. S. SHIPPING BOARD

WASHINGTON.—Reappointment of Rear Admiral W. S. Benson as chairman of the shipping board was announced Saturday at the white house. At the same time announcement was made of the appointment of six other members of the new board authorized by the merchant marine act.

The other six members are: Frederick I. Thompson, Alhambra, democrat, term of five years; Joseph N. Teal, Oregon, democrat, term of four years; John A. Donald, New York, democrat, term of three years; Chester H. Howell, California, term of two years; Guy D. Goff, Wisconsin, republican, term of one year; Charles Sutter, Missouri, republican, term of one year.

Admiral Benson is appointed from Georgia as a democrat and his term is for six years. The appointments are recess ones and the nominations are subject to approval by the senate.

MANITOWOC, Wis.—A milk war has been launched here by the decision of a local restaurant to sell milk at ten cents a quart on a cash and carry plan. Milk dealers have been charging thirteen cents a quart. The dealers have called a meeting and it is expected will reduce their present price.

APPOINTMENTS

WASHINGTON.—Frank D. Ewington of Maryland was appointed by President Wilson as commissioner of Pensions. Frederick A. Royce of California was named deputy commissioner.

The appointment of Carl A. Mapes of Michigan as solicitor of internal revenue, also was announced.

M. L. BROWNE LOSES SUIT AGAINST CITY FOR FALSE ARREST

Policemen Accused of Detaining His Unlawfully; Asks \$5,000 Damages

M. L. Browne, arrested last July on suspicion of being a "Peeping Tom," lost his suit for \$5,000 in circuit court against John T. Wendling and Blaine Thompson, night desk sergeant at police headquarters and patrolman respectively. The jury rendered a verdict in favor of the policemen last yesterday. Browne, charged that he had been arrested falsely and confined in a cell from 1:30 a. m. July 18, until 4 p. m. July 19, when he was released.

In the charge to the jury Judge Higbee indicated that, in his opinion, Browne may have been held in jail without warrant or justification on Monday, on which day he was released at 4 in the afternoon, but he could not have been arraigned in court on Sunday, the first day after his arrest, because it was a legal holiday.

The divorce action brought by Emma Lau against her husband, Richard, was begun this morning. Mrs. Lau testified to cruel, abusive treatment from her husband. Her sons, Martin and Edward, told how abusive their father became when the mother asked for money and related how he drove her from the house one winter, forcing her to flee in her night clothes. The case will be resumed again this afternoon.

The following default divorce cases were brought up: Mabel Cornwell against C. J. Cornwell; Theresia Lohy against Wilfred Lohy; Maude A. Daggett against Asbury Dyson Daggett; Rosa Johnson against William E. Johnson. Mrs. Johnson testified that she was married in 1888 and that her husband left her in 1888 and that she has had no word from him since three months after he left her. Decisions in the cases await the return of divorce counsel, Lucien T. Reid, who is absent from the city.

MEXICANS OPPOSE LAND PROVISIONS OF CONSTITUTION

WASHINGTON.—Land owners in the Mexican state of Jalisco have organized to fight Article 27 of the Mexican constitution because of its alleged confiscatory provisions, according to Mexico City newspapers. The newspapers say the leaders of the Jalisco opposition to Article 27, propose to enlist in their fight land owners throughout the republic.

Article 27, against which for three years the governments of the United States, Great Britain, and France have protested, is characterized by the Jalisco land owners in a statement printed in the capital newspapers as "an alleged law of spoliation," which has been merely a law of spoliation. The effect of the operations of the article, which expropriates land above a certain acreage held by individuals or corporations, the land owners assert, "has been to destroy little by little the agrarian property, to reduce production, to spread terror among agriculturists and to paralyze all their activities."

REDMAN GETS \$12.50 FOR EXCESS SPEED ON LOCAL CAUSEWAY

Gast Redman of Onalaska was brought before the police court this morning and fined \$10 and costs after pleading guilty to the charge of driving an automobile over the causeway at the rate of forty miles per hour. The offense was committed on November 8, but Redman was given until today to appear.

ACCEPTS OFFER OF CLUB OWNERS BUT WON'T QUIT BENCH

of the New York Americans; Clark Griffith of the Washington club; Charles Ebbets of Brooklyn; Garry Herrmann of Cincinnati; Barney Dreyfuss of Pittsburgh, and John Breckon of the St. Louis Nationals. Later they were joined by Connie Mack of the Philadelphia Americans, Robert Quinn of the St. Louis Americans, and James Duggan of Cleveland.

Will Not Quit Bench

At first the judge refused the offer on the ground that he "loved his position as judge" too much to quit the bench. Finally, however, he agreed to hold both positions, but specified that his baseball salary should be decreased by \$7,500—the amount he receives as judge. It was agreed that as chairman he should receive \$42,500 a year instead of the \$50,000 originally offered.

After the meeting Judge Landis took Clark Griffith, a personal friend, over to a window.

"Griff," he said, "I'm going to tell you why I took this job. See those kids down there on the street. See that airplane propeller on the wall? Well, that explains my acceptance.

"You see, that propeller was on the plane in which my son, Major Reed Landis, flew while overseas. Reed and I went to one of the world series games at Brooklyn. Outside the gate were a bunch of little kids playing around. Reed turned to me and said: 'Dad, wouldn't it be a shame to have the game of these little kids broken up? Wouldn't it be awful to take baseball away from them?'

Wants to Save Game for Kids

"Well, while you gentlemen were talking to me, I looked up at this propeller and I thought of Reed. Then I thought of his remark in Brooklyn. Griff, we've got to keep baseball on a high standard for the sake of the youngsters—that's why I took the job; because I want to help."

Judge Landis' official acceptance was made in the following statement:

"I have accepted the chairmanship of baseball on the invitation of the sixteen major league clubs. At their request, and in accordance with my own earnest wishes, I am to remain on the bench and continue my work here. The opportunities for real service are limitless. It is a matter to which I have been devoted for nearly forty years. On the question of policy, all I have to say is this: The only thing in anybody's mind now is to make and keep baseball what the millions of fans throughout the United States want it to be."

Power to be Supreme

The club owners agreed to a modification of the governing tribunal proposed by the Lusk plan. Instead of a committee of three, Judge Landis will be the only member of the committee and will be in complete control of all leagues coming under the plan.

PRESIDENT-ELECT IS KEPT INDOORS BY BAD WEATHER

WEST ISABEL, Tex.—By The Associated Press.—Kept off the Point Isabel-fishing grounds by a cold norther and virtually marooned on the land side by almost impassable roads, President-elect Harding remained at his seashore cottage Saturday, winding up his vacation week with a complete rest. He hopes to get out for more target fishing Monday if the storm blows over and on Tuesday he expects to play a game of golf at Brownsville when he motors there to meet Governor Hobby of Texas. He probably will remain there over Tuesday night and will leave Wednesday morning for New Orleans to sail to Panama.

WAUSAU MAN DROPS DEAD IN LOBBY OF HOTEL AT MADISON

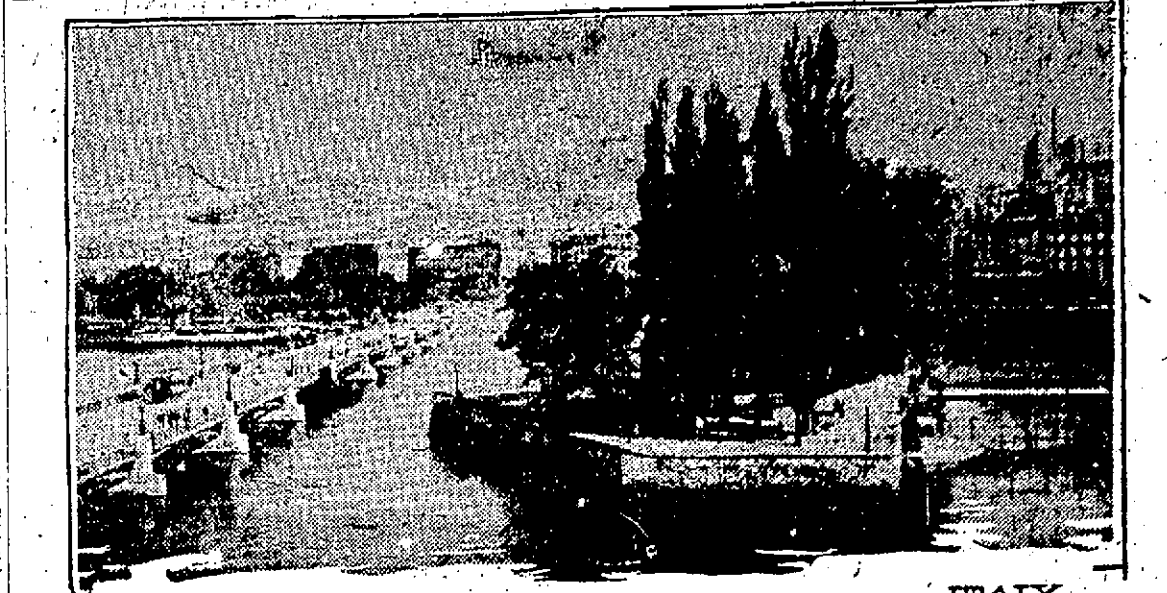

MADISON, Wis.—J. N. Manson, 65, of Wausau, Wis., in Madison to attend the University homecoming and the Illinois-Wisconsin football game dropped dead in the lobby of the Park hotel here late Friday night. Death was instantaneous.

After dinner in the evening, Mr. Manson attended a theater. Returning to the hotel he met a group of friends, some of whom he had not seen for some time. Advancing to greet W. S. Thom, a former Madison man, Mr. Manson said: "How are you, Thom? I haven't seen you in a long time." As he uttered the last word he dropped to the floor.

JAPAN AND AMERICA NEAR AGREEMENT ON IMMIGRANT QUESTION

Agree on Principle But Differ on Methods to be Employed

TOKIO.—Newspapers report the Japanese and American governments have reached an agreement in principle relative to exclusion of Japanese laborers from the United States. It is asserted, however, there is a disagreement regarding the methods to be employed.

America is understood to desire provisions for exclusion embodied in a treaty, but Japan, it is said, regards this procedure humiliating, and as forming a precedent she might be forced to follow in treaties negotiated in the future. Japan is declared to consider that measures prohibiting her subjects from emigrating can be taken only on her own initiative.

Obituary

MRS. C. A. CORDELL

Mrs. C. A. Cordell, a well known resident of this city for many years, died Thursday at Brockton, Mont., at the home of her daughter, Mrs. C. H. Nelson, of Brockton. She went to Montana September 11 to visit her daughter.

Mrs. Cordell was born at Red Wing, Minn., in 1857, and married in that city in 1882. Two years later Mr. and Mrs. Cordell came to La Crosse to reside, and the family has resided here since.

Surviving are two daughters, Mrs. C. P. Nonstad, of La Crosse, and Mrs. C. H. Nelson, of Brockton, Mont., one sister, Mrs. Fred Tebben, of Portland, Ore.

Interment will be made in Brockton.

SPECIAL PRIVILEGES TO NONE IN CHINESE PROJECT--LAMONT

Aim of Consortium is to Forward Development of China's Enterprises

WASHINGTON.—Speaking for the American Bankers' Group in the consortium for China, Thomas W. Lamont of New York declares in a letter to the Far East commercial intelligence service that no preference will be extended to any business interests in the undertakings contemplated.

"I have no authority to speak for the other groups," said Mr. Lamont, "but my conferences with them convince me their attitude is identical with ours."

"Our aim is to help China develop her great basic enterprises, and at the same time protect China and the foreign investors who purchase her bonds in the underlying and intrinsic value of the projects for which she borrows and they loan."

"In order to accomplish our purposes for China we must do our best to see that she secures the benefits, other things being equal, of the lowest possible prices for the material and equipment that finally goes into the up-building of her public utilities."

WRECKAGE FOUND IN LAKE BELIEVED PART OF MISSING PLANE

Storm on Lake Michigan Makes Search for Flyers Difficult

MUSKEGON, Mich.—Wreckage believed to be part of the missing seaplane from the Great Lakes naval station, has been picked up by a patrol operating out of a station at White Lake, near here, according to a report reaching the United States coast guard station here today.

The patrol was more than an hour out from the station when the report was received at White Lake. White Lake is about 16 miles up Lake Michigan from this city.

Additional patrols have been sent out from the White Lake station.

Abandon Hope

CHICAGO, Ill.—Efforts to send two naval seaplanes in search of the U.S. 2-L flier, which, with three men aboard, has been missing since it left Great Lakes naval training station last Wednesday, were deferred this morning pending warmer weather.

Lieutenant Commander Eugene Wilson, commandant of the aviation mechanics school at Great Lakes, stated today that hope for the missing men had been abandoned. As soon as the weather moderates, however, planes will be sent out in an effort to locate the wreckage of the missing ship and recover the bodies of her crew.

The submarine chaser 459, revenue cutter Tuscarora, coast guard cutter from Sheboygan, Manitowoc, Milwaukee and Two Rivers and a fleet of fishing boats and tugs has hunted since Thursday without result.

Lieutenant Harry C. Barr, pilot of the plane, has a wife and young daughter at Lake Forest, Ill. Ensign Edwin M. Clarke, one of his companions, is the son of a Peoria business man. The third flier, Frank J. Caesar, is from Hollywood, Ill.

BOATS IN COLLISION OFF STATEN ISLAND

NEW YORK.—The Spanish mail steamer Montserrat from Cadiz with 270 passengers for New York, Mexico and the West Indies, and the steamer San Marcos, arriving from Galveston, were in collision off Staten Island Saturday morning.

Some of the Montserrat's passengers leaped overboard, early reports showing that at least one had been rescued and sent to the Ellis Island hospital.

The San Marcos continued to her pier, where she arrived safely. The Spanish line's agents reported the Montserrat had been beached off the foot of Fifty-ninth street, Brooklyn, in a safe position and that only one passenger—who had jumped from the deck to a tug alongside—had been injured.

Plans for bringing the passengers ashore were begun at once.

REGISTERED MAIL REPORTED STOLEN FROM N. W. TRAIN

MILWAUKEE, Wis.—A pouch of registered mail was stolen Friday night from a through mail train on No. 111, on the Chicago and Northwestern railroad somewhere between Chicago and Milwaukee, it was announced here today by officials of the road.

The pouch apparently was stolen by some one who had been locked inside the car before it left Chicago, according to J. S. Lawrence, special agent for the Chicago and Northwestern railroad. He said that the car had four doors, two of which were locked from the outside and two from the inside before the car left Chicago.

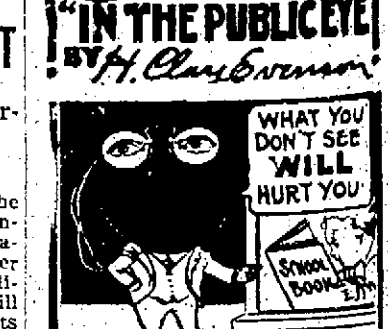

When the car arrived here one of the doors that had been locked from the inside was found to be open. One pouch of registered mail was gone.

No information as to the contents of the pouch or its value was obtainable.

LA CROSSE NORMAL ELIMINATED FROM CONFERENCE RUNNING

By GEORGE McMANUS

LA CROSSE LOSES SOUTHERN TITLE TO OSHKOSH TEAM

Defeated by Coach Dillon's Aggregation Friday by Score of 26-0

OSHKOSH STARTS SCORING IN INITIAL PERIOD OF MIX

La Crosse Line Holds in Second Half: Allow One Count

La Crosse Normal school's championship hopes were shattered yesterday when the Keeler crew was defeated 26-0 at Oshkosh. The Sawdust city has now the only undefeated normal in the southern section, and will meet River Falls at River Falls to decide the state championship on November 20.

Oshkosh started scoring in the first quarter, when their speedy fullback, Lelli, smashed through for a touchdown. Yeager, fullback for La Crosse, was injured in the first two minutes of play and had to be taken from the game. Thompson going in his position. The score at the end of the first quarter was 7-0 in favor of Oshkosh.

La Crosse made a strong bid for a comeback in the second quarter but the breaks went against them. A blocked punt on their own fifteen yard line cost La Crosse another touchdown. One of the Oshkosh men broke through and fell on the ball, which was put over after one or two more plays. Another score was added to the list toward the end of the second quarter, but the attempt to kick goal failed. This made the score 20-0 in favor of Dillon's men.

La Crosse Strengthened

La Crosse took a brace in the second half, but could not prevent their opponents from adding another score to their list. The last marker came in the third quarter, after about five minutes of play.

The next conference game is to be the championship game at River Falls next Saturday.

Locals are Crippled

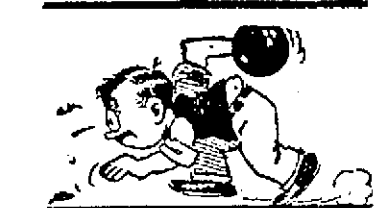

La Crosse's defeat was probably due in large measure to the crippled condition of the men on the team. Captain Schrader, Reetz, Rippé and Yeager were all suffering from injuries received in the past two games.

The lineup:

Oshkosh: Solbraun, right end; Smith, right tackle; Fuchs, right guard; Brandler, center; Taylor, left guard; Below, left tackle; Webster, left end; Brubaker, quarterback; McAndrews, right half; Lelli, fullback and Kols, left half.

La Crosse: Rippé, right end; Wolfe, right tackle; Kewin, right guard; Wilke, center; Dahlgren, right guard; Lewis, left tackle; Miller, left end; Heget, quarterback; McCormick, right half; Captain Schrader, left half; Yeager, Thompson, fullback.

BOWLING

The National College bowling team won two out of three from the Arenz Shoes at the Leons' rally Friday night. Vneman was individual star with 236 pins in a single game and a total of 375 for the three games. Wiltzinger totaled 356 for the Arenz Shoes.

Peterson rolled high total on the Sherven Clothing company team who took two out of three from the Collegians. Peterson rolled 360 for three games, while Bollrud, member of the Collegians, totaled 387.

CENTRE TEAM FINDS GEORGIA TOO ROUGH ON FOOTBALL FIELD

Sever Athletic Relations With Tech Because of Unsportsmanlike Conduct

DANVILLE, Ky.—Dr. Frank L. Rainey, faculty chairman of the Centre College Athletic Association, announced that at a meeting of the association today it formally was decided to sever all athletic relations with Georgia Tech, due to the announcement said, to manifest unfairness and unsportsmanlike conduct to tech football players in a recent game at Atlanta between the football teams of the two colleges.

Statements made by Centre college players who participated in the game asserted that members of the Tech squad deliberately kicked and struck Centre men on the football field when they were down.

ATLANTA, Ga.—The Georgia Tech Athletic Committee at a meeting yesterday voted against placing Centre college on tech's football schedule next season. J. B. Crenshaw, faculty chairman of athletics at the Georgia school, announced today.

Prof. Crenshaw said "this step was considered necessary because the Centre college officials had failed to make any public disavowal of statements published in Danville and Louisville newspapers, though their attention had been called to these vicious and unjust attacks on the Georgia team."

MAROONS IN BAD WAY FOR STRUGGLE WITH WOLVERINE HUSKIES

ANN ARBOR, Mich.—Chicago and Michigan are ready. A giant crowd of 32,000 is almost assembled. Both teams are out of the running for Big Ten honors, but from the talk about a stranger would believe that the championship of the world hinged in this combat—the first between the Wolverines and the Maroons on Perry field since 1904.

Both teams are crippled, Chicago probably the more seriously, but it should be a great battle, one as bitter as any fought in the west this year. When Fielding H. Yost and Alonzo Amos Stagg confront each other some body is due for a sound thumping, and this year will be no exception.

HARVARD COACHING BODY VOTES AGAINST NUMBERING SYSTEM

CAMBRIDGE, Mass.—Players of the Harvard football team will not be numbered in the game with Yale or in any other contests. Coach Robert Fisher announced last night. In making known the fact that the graduate football advisory committee had voted unanimously to support his decision the Crimson head coach said the principal reason was to protect the system of play which Harvard has been years in building.

"BABE" RUTH FILES BANKRUPTCY SUIT AGAINST FILM FIRM

NEW YORK — George Herman (Babe) Ruth, slugging outfielder of the New York American baseball team, has filed an involuntary petition in bankruptcy against the Yankee Photo corporations, alleging a claim of \$25,000 for services rendered under a contract made in July, 1920.

ROD and REEL

FISHING IN THE FALL

If there is any time in the whole fishing season that is more delightful than the fall or autumn, lead me to it. After the first frost has nipped the leaves and they have changed to countless tints and shades of gold, yellow and red with the deep green of the pines making them stand out in flash and splendor, then and not until then, will you realize that it is not all of fishing merely to fish.

The best old days of July and August have been passed into the discard and with them all the thousands of insect pests that feed on the unsuspecting angler as he works overtime trying to coax the uninterested fish with all manner of baits and lures. No more do you have to wake up two hours before the roosters and just ahead of the sun in order to get to the fishing waters when the fish are in the shallows for a feed, nor do you have to wait until dusk or darker to go after them with some chance at finding them in the humor of biting.

During the hot summer days the fish are dull and sluggish, devouring most of the daylight hours to a siesta in the cool depths and although you lower your bait to them, they give it the once over with little or no interest. Even the eager little pantries seem to be off the feed at this time.

Among the big fellows, the pike, pickerel and musky, Dame Nature has been playing hob with the teeth and gums and by the opening of the fall fishing these old warriors' molars have been shaped up so that they are in fine fettle to try them out on most any bait that flashes past.

Right here I want to justify a statement I made sometime ago regarding musky losing their teeth during August, and being supplied with an entirely new set for winter feeding. This statement has caused considerable comment among writers of fishing lore. I made it a particular point to examine quite a number of musky this season and find that as late as September 10th some of them still had the old teeth hanging loose in the mouth, while in front of the old teeth were the new dagger teeth firmly set in the jaws and ready for business. This is a little later than usual for the old teeth to remain and was no doubt caused by late seasonal conditions. At this same time the gums of the pickerel were still swollen and in poor shape to encourage an attack on a lure.

As an explanation why these fish that are affected with teeth troubles do not take the bait at this toothless period, although they must surely eat, many hold that their feed on the almost invisible animal life in the water and the vegetation which is in bloom at this time.

The fish at this time of the year are right on an edge, they are alert and keenly alive to everything and nature helps them to the extent of keeping their home waters clearer than at any other period. They can see for longer distances and the still clear atmosphere of October is in their favor. Caution and skill in fishing quietly are far more necessary in autumn than earlier in the season.

For an artificial for all bass fishing let it be a white body with a dash of red, and the wobbler type. At the same time a green backed white bellied underwater minnow also makes an attractive lure and is particularly good for wall-eyed pike. The wall-eye is mighty hungry in the fall and right up into November and he makes a conscientious biter as the cooler weather sets in. He is still a bottom feeder and you must send the bait down to him. Don't be afraid to shoot your cast in among the weeds and lily pads for the bass. That's where you will find them in the fall, way in close to shore feeding, especially in the evening, and flirting with the edges of the weed patches will not bring half as much results as casting right into the weeds.

The live frog and minnow are the fall baits and if you hook your frog on a weedless hook, toss it as lightly as possible into the weeds and let it settle a bit, reeling in slowly, stopping for a second now and then, you are offering a mighty inviting lunch to a hungry bass.

For the musky, pike and pickerel the old reliable spoonhook, about a No. 4 to 6 is an ideal trolling bait and the way they hit the spoon with a savage lunge is enough to shatter the nerves of a fair-weather fisherman. And pickerel, well, the fall caught "peck" will be a surprise to the fellow who hates 'em in the summer.

SPORT SUMMARY

MINNEAPOLIS, Minn.—Clonie Tait, lightweight champion boxer of Canada, knocked out Lew Edwards, lightweight champion of Australia in the second round of a scheduled ten round bout.

CAMDEN, N. J.—Benny Leonard, lightweight champion, easily defeated K. O. Longhlin of South Bethlehem, in a ten round bout.

TACOMA, Wash.—William M. Johnston, San Francisco, former national tennis champion, defeated William T. Tilden, II. of Philadelphia, tennis champion of the world, in an exhibition singles match, 7-5, 6-4.

ILLINI AND BADGERS IN BEST SHAPE FOR IMPORTANT BATTLE

Capt. Weston and Tebell Back in Lineup; First Game Since Ohio State

MADISON, Wis.—Illinois meets her crucial test of the season today when she lines up against Wisconsin for the most important game of the week in Big Ten conference circles. Coach Zuppke and his men are prepared to fight hard in an effort to come out in shape to face Ohio next week in the championship game without a defeat registered against them.

The Badgers are equally determined to win. They have thousands of returned alumni here for homecoming to please as well as the record-breaking turnout of the student body. Both teams are in perfect condition without an injured man on the roster of the first squads. Captain Weston and Tebell will be playing at the end positions for Wisconsin for the first time since the Ohio game when they were taken out with injuries.

Ideal football weather with the temperature around freezing gives assurance of a fast and hard fought contest in which the two evenly matched teams will fight out their annual battle.

Here's Dope On the Big Ten Conference Read and Figure Out

CHICAGO, Ill.—Illinois today faces Wisconsin at Madison, Wis., in the most important contest of the day's conference games, with Wisconsin's slim chances at stake. The Illinois hope for victory so that they may meet Ohio State next Saturday with their slate still clean. Coaches of both teams stated today that their squads were in excellent physical condition and unless some of the regulars are injured early in the day, the battle should be one of the hardest fought of the season in the west.

Chicago battles Michigan at Ann Arbor for the first time since 1904 and Purdue plays Northwestern at Evanston. Indiana goes out of the conference to play Notre Dame, while Ohio State is idle.

Ohio State and Illinois are each undefeated, with four victories, while Wisconsin has lost to Ohio State. A victory today for Wisconsin and again over Chicago a week later would give the Badger eleven standing of four games won and one lost. Illinois would go into the Ohio State game with the same standing. Victory for Illinois over Ohio would give them a mark of five and one, however, with Ohio and Wisconsin each having one less victory. On the strength of this standing Illinois could claim the championship.

The Northwestern-Purdue game is expected to be close for the home coming spectators, but has no bearing on the championship race.

Minnesota was at Iowa City where the homecoming crowd hoped to see Iowa repeat its feat of the last two seasons of defeating the Gophers.

NEED NO "CARPET"

CHICAGO—"Not one member of the Illinois team has ever been up before me for disciplinary action," said Dean Clark of the University of Illinois, at a smoker recently.

YALE-PRINCETON CLASH TO FEATURE EASTERN PROGRAM

Brothers are Rivals as Captains in Their Final Contest

NEW YORK.—The annual clash between Yale and Princeton was the outstanding contest of today's Eastern football program, although several other battles of more than passing interest were scheduled. Danforth plays Pennsylvania at Philadelphia; Columbia meets Cornell at Ithaca; Washington and Jefferson invades Pittsburgh for its yearly battle with the Panthers; Harvard opposes Brown at Cambridge, while the Army and Navy eleven face Bowdoin and South Carolina, respectively, at academy fields.

Princeton was favored to the wagering to win from Yale.

The Princeton-Yale classic drew more than 50,000 spectators to the Palmer Memorial stadium. The thrills of a gridiron rivalry that began forty-eight years ago, the spectacle of affluence, beauty and fashion from all parts of the country, the competition in songs and cheers, the unprecedented fact that the captains of the teams are brothers—the Callahans of Lawrence, Mass., all these factors caused every seat to be sold long in advance.

Captain "Mike" of Princeton, and Captain "Tim" of Yale, met in their last Yale-Princeton game, each determined to go down in college history as the leader of a winning eleven.

RECORD BIKE PURSE

NEW YORK—Tex Richard will offer the largest purse ever hung up for a six-day bicycle race, when the twenty-ninth annual event gets away at Madison Square Garden, Dec. 5 to 11.
